WORK EXPERIENCE

Slalom Build

Senior Software Engineer Dec 2024 - Present

- Designed and developed full-stack applications using .NET 8, Blazor, and Azure, improving system performance, scalability, and overall user experience in the energy sector.
- Built and deployed RESTful APIs using Python on GCP, leveraging BigQuery, Cloud Run, IAM, Cloud Storage, Secret and Parameter Manager, APIGEE, Vertex AI, and MongoDB to deliver secure, scalable, AI-powered cloud solutions in the automotive industry.
- Actively contributed within Agile/Scrum environments, participating in sprint ceremonies, code reviews, and cross-functional collaboration to drive continuous, high-quality delivery.

INFOSYS Mexico

Software Engineer Feb 2024 - Dec 2024

- .NET Developer responsible for designing and implementing robust APIs and applications.
- Developed microservices and managed their deployment using CI/CD pipelines and Octopus.
- Migrated legacy Mulesoft apps to modern .NET, ensuring seamless integration and functionality.
- Expertise in .NET frameworks, MVC architecture, microservices, CI/CD, and application migration.

KEMET Yageo Company

Full Stack Software Developer May 2023 - Feb 2024

- Full Stack Software Developer with expertise in C#, VueJS 3, and SQL.
- Developed robust RESTful APIs adhering to Domain-Driven Design principles.
- Implemented microservices architecture for seamless frontend integration.
- Skilled in creating responsive user interfaces and optimizing SQL queries.

HACSYS de México S.A. of C.V.

Jr. Full Stack Software Developer June 2021 - June 2023

- Collaborated with clients to analyze requirements for developing solution proposals.
- Developed web applications integrating frontend, backend, and middleware components.
- Implemented VueJS, .NET, and SQLServer for the development of a full stack web application.

RELEVANT WORK & PROJECTS

Dissertation project at UDEM

Prediction of children's IQ using Human Figure Test psychology technique Jan 2023 - Dec 2023

- Development of a MVC app based on Domain Driven Design that allows the user to upload a drawing of a child and be analyzed by a non-supervised neural network to predict his IQ.
- Use of .NET 7, GCP, Quasar with VueJS, Python, PyTorch, Onnx, YoloV8, Docker, Git, Linux, SignalR, NodeJS, Web Sockets, OWASP Standards, JWT, Raspberry Pi, Cloudflare Nielsen's Heuristics, etc.

EDUCATION

University of Monterrey (UDM) | San Pedro Garza García, N.L., Mexico

Engineering in Computer Technologies | GPA: 9.72

LEADERSHIP EXPERIENCE

Drivers of Change & Leaders Plus Honors Program

Member of the 4th & 17th generation Ago 2019 - Dec 2023

- Development of social projects associated with the UN sustainable development goals.

COURSES & CERTIFICATIONS

C#: Advanced Practices LinkedIn	2025
Career Essentials in GitHub GitHub	2025
Scrum Master PSM I Scrum.org	2024
Modern JavaScript: ES6 Basics Coursera Project Network	2022
The Unix Workbench John Hopkins University	2022
Data Structures and Performance U.C San Diego	2021

SKILLS

English (TOEFL ITP: 577), GitHub(5 yrs), Azure(5 yrs), .NET(5 yrs), GCP(2 yrs), Python(4 yrs), VueJS(4 yrs), React(4 yrs), Quasar(4 yrs), SQLServer(5 yrs), Docker(3 yrs), Linux(3 yrs), Cloudflare (3 yrs), CI/CD (2 yrs), MongoDB (1 yr)

SOFT SKILLS

Leadership, assertive, self-taught, curious, adaptability, teamwork, resilient, responsible and organized.
